

Freedom of Information Request Statistics 2008

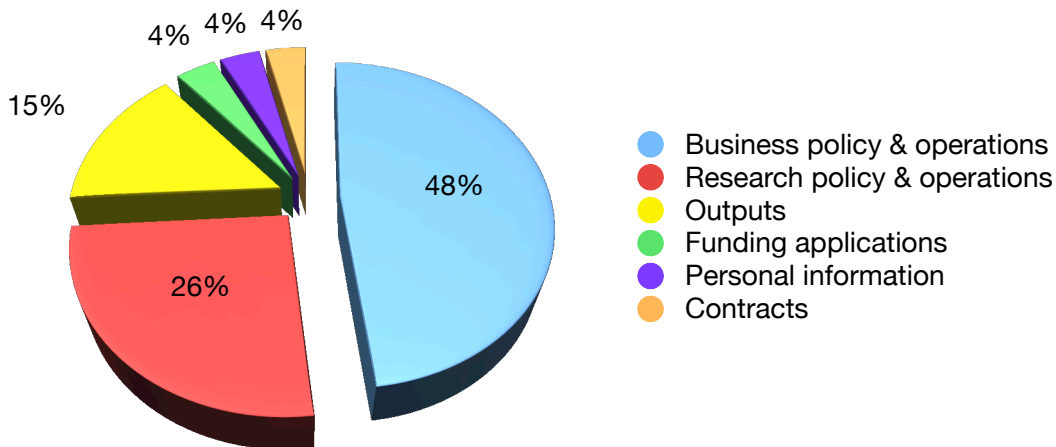

During 2008 NERC answered 27 requests for information under the legislation, covering a wide range of subjects from business policy to research outputs. We answered 96% of our requests, some of which were complex, within the statutory time limit.

Much of our information is readily available without a specific Freedom of Information Act request; for details see our Publication Scheme at foi.nerc.ac.uk.
