

Risk Management in NERC (duration 3 hours)

Who should attend

This course is intended for those NERC staff who have not been nominated for Safety for Directors in a Research Environment or Safety Management in a Research Environment (**Nominations via relevant line management**).

Aims

- To introduce the principles of Risk Management in NERC and to detail the NERC procedures for general risk assessment

Objectives

On completion of the course, delegates will be able

- To carry out hazard identification and apply risk management techniques in line with NERC Safety Management procedures.

N.B. The decision was made at Safety Management Team level that face to face training should be carried out for at least one element of the Responsibilities or Risk Management courses
