

RESEARCH ORGANISATION DEPARTMENTAL SUCCESS RATES : 2006/07

The following success rates are based upon the total number of applications submitted by individual departments and are based on decisions made during financial year 2006/07 ie the applications may have been submitted in the previous financial year. Proposals to all responsive and knowledge transfer schemes are included as well as research grant applications to directed programmes. Research Fellowships are not included. The data included joint proposals -ie each distinct element of a proposal is attributed to the appropriate institution and department. Further information about our funding schemes and joint awards can be found at www.nerc.ac.uk/funding/forms/. These data do not differentiate between applications submitted jointly by different departments/schools within the same Research Organisation. All applications are shown as being submitted by one department in the Research Organisation (ie the department submitting the application to NERC via the JeS system), even in cases where monies and effort may be shared within that institution.

Financial Year	Research Organisation	Department	Total Number Applications	Total Number Funded	Success Rate Numbers	Total Amount Requested £K	Total Amount Funded £K	Success Rate Funds
